# What is Asian Handicap?

Well, asian handicap is a relatively new type of bet which has taken football betting to a whole new level.

Basically, this type of bet (asian handicap) eliminates the possibility of a draw in a football match.

The Asian Handicap is created so that, in theory, each team has an equal chance of winning the game.

Instead of deciding between 1, X or 2 (Home, Draw or Away) you must simply decide which team you think is the best.

Don't worry, if you havent understood yet, read further and you will certainly understand how this system works.
